THE BATHROOM

We continue to marry bathrooms with the Creavit experience by providing more functional, market proven and personalized solutions with our innovative ideas. We transform bathrooms into living spaces with elegant and unique designs that appeal to different styles. For 50 years, we have been creating new experiences in the bathroom with diversified product lines ranging from ceramic sanitary-ware to bathroom furniture, concealed cisterns to flush plates, faucets to accessories and hundreds of products to select from. We will continue to do the same in the future boasting that "the bathroom".

creavit[®]

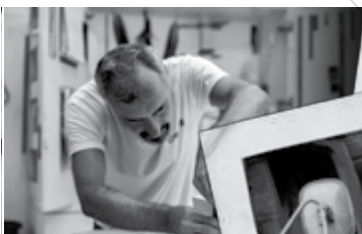

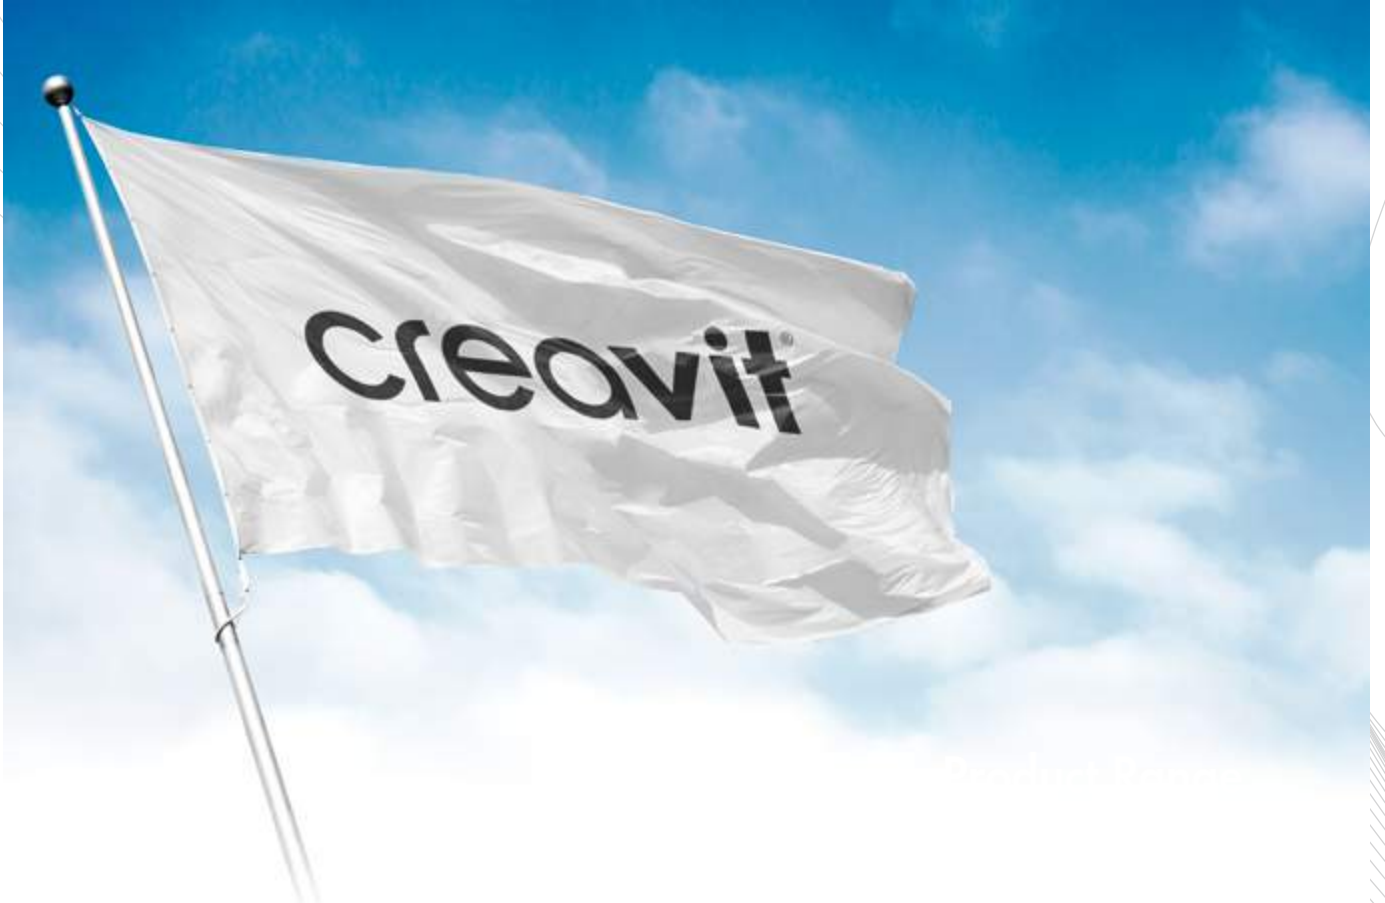

Since our early days in a tiny workshop about half a century ago, we have been building these bathrooms with our sweat and tears, with the greatest efforts of countless devoted people with a common aim. A myriad of stories lie behind our products molded by hand and by mind to enter into the lives of millions of people. We are deeply grateful to all who contributed and strove to grow Creavit out of its birthplace in Gökçebey, Zonguldak into 65 countries around the world to brighten up bathrooms.

You too have a hand in this bathroom...

ANTIBACTERIAL TECHNOLOGY
IN BATHROOMS

ULTRA HYGIENE

Silver ions contained in the unique glazing specially developed by Creavit and endorsed by independent authorities inhibit bacteria formation 99.9 percent.

The special glazing can be applied to any ceramic surface such as pans, washbasins, urinals, and shower stalls. It inhibits bacteria formation 99.9 percent.

It has been proven that the Ultra Hygiene technology endorsed by the Anadolu University, Nano Bio Matters Laboratory, and the Turkish Standards Institute inhibit bacteria formation 99.9 percent.

HYGIENIC AND PRACTICAL CONTROL PANELS WITH SENSOR

Creavit Photocell Flush Plates offer three uses in one. While the photocell provides ultra hygiene, the touch sensitive technology offers comfort. Besides, the mechanical device ensures constant hygiene even when the battery needs replacing.

THREE-IN-ONE REPLACEMENT SET

Creavit's innovative product Replacement Set transforms all mechanical concealed cisterns to a photocell type.

PRACTICAL AND FAST REPLACEMENT

When installing the Creavit Replacement Set, there is no need to destroy or damage the walls.

During installation, it is enough to connect the control panel and the motor in the cistern to the bridge.

STEP-BY-STEP
EASY INSTALLATION

CAUTION: Finally, connect the white coloured power cable to its corresponding slot on the photocell control panel.

CREAVIT BATHROOM FURNITURE

foglia
design by Defne Koz

foglia
[foʎa]
noun
Leaf in Italian

When designing Foglia, instead of
closing water into a volume,
I inspired the delicate, slightly curved
surfaces that glorified it.

Foglia, Italian means “leaf.”
Foglia lines fluid, curvy, natural, elegant,
thin, organic...

... Just like a leaf.

WITH LAUNDRY BASKET

Eliminating the need for extra laundry basket, the high cabinet with laundry basket provides space saving and stylish appearance in the bathroom.

ELEGANT WOOD

THERMOFORM PLATED

With thermoformed bathroom fixtures, Creavit combines its classic bathroom elegance with hygiene. Rendering a 3-dimensional look to bathroom cabinets, thermoformed doors are offered with a rich selection of colors and models. The water and moisture resistant structure of thermoformed lids inhibit bacteria build-up and maximize bathroom hygiene.

THREE FUNCTIONS IN ONE FAUCET

DRINKING WATER KITCHEN FAUCET

Creavit's Drinking Water Kitchen Faucet makes life easier by providing a direct connection to the purification device of the water main, without the need for additional equipment.

Combining three different functions in one faucet, thanks to its direct connections with hot water, cold water and the water purification device, Creavit ensures easy access to drinking water with one simple action. The direct connection to the water treatment device ensures fast and easy installation.

Windows front a Washbasin

Thanks to its 180-degree faucet, Creavit puts an end to the problem of opening the windows behind a washbasin.

SH630 SHOWER HEAD

Creavit makes life easier with innovative ideas, and its SH630 Shower System solves the clogging problem due to hard water deposits in the bathroom. The anti-scaling mechanism in the Creavit SH630 Stainless Shower System prevents clogging in the shower head, ensuring a continuous and pleasant showering experience.

The mechanism works with water pressure and opens when the water is flowing. When the water-flow stops, its holes close, preventing the formation of scaling deposits.
