Netsu Ebara's Founding Spirit
to Makoto

“The spirit of enthusiasm and sincerity supporting creativity and inventiveness”

MATRIX

Multistage pumps

Features

- Super silent
- Stainless steel AISI 304 Body
- Stainless Steel Impellers
- Fully automatic operation
- Premium Efficiency Motor
- Designed in Japan, made in Italy

Application

Pressure boosting and water transfer for Domestic and Light Commercial Applications

- Flow: *Upto 250 LPM*
- Power: *Upto 3HP*
- Head: *Upto 9 bar*

CDX Centrifugal pumps

Features

- Silent
- Stainless Steel AISI 304 Body
- Stainless Steel Impellers AISI 304
- Fully automatic operation
- Premium Efficiency Motor
- Designed in Japan, made in Italy

Application

Pressure boosting and water transfer for Domestic and Light Commercial Applications

- Flow: *Upto 110 LPM*
- Power: *Upto 1HP*
- Head: *Upto 3 bar*

JESX Self Priming Pump

Features

- Silent
- Full Stainless Steel Body AISI 304
- Polyphenylene Ether (PPE) + PS Glass Fibre reinforced Impellers
- Fully automatic operation
- Premium Efficiency Motor
- Designed in Japan, made in Italy

Application

- Pumping water from wells and irrigation purposes
- Pressure boosting and water transfer for domestic purposes
- Flow: *Upto 250 LPM*
- Power: *Upto 3HP*
- Head: *Upto 9 bar*

BOOSTER SET

OPEN-WELL SUBMERSIBLE PUMP

Also Available - Enquire for More Details

Fluid Control Kit and Pressure Tank

Benefits

- Dry run protection
- Reduces the start and stop cycle of a pump significantly thereby increasing pump life

**Included with Pump – Anti Vibrating Pad
+ 2 meter wire with 3 Pin top - FREE**
